MSN, Nursing Administration

BS, Nursing

Sharon has more than 23 years of progressive leadership experience in home health administration. She began her home health work during a time of significant growth for the Industry. During the following years, Sharon led her agencies through the numerous regulatory and reimbursement changes that resulted in increasingly more complex care delivery models. It's been an interesting journey for her and agencies she served. She brought that knowledge and experience to Florida Palliative Home Care when she joined them in 2008. Sharon received her OASIS Specialist Certification in 2008.

Sharon enjoys working with Middle Managers in the home health setting. She has gained much appreciation for the value that role brings to the agency. She enjoys mentoring new supervisors to reach professional goals.
